

AI KIT - VISUALIZATION | EARLY RENEWAL

Securing a Renewal before the Anniversary Date

An end-to-end walkthrough — from the eligibility window through partial renewals and guardrails to adding products, with the API used at each step.

What this walkthrough covers

01

Eligibility

When early renewal is offered — the action appears only inside the window before the anniversary date.

02

First early renewal

Renew a product's current licences; the first successful order rolls the anniversary date forward.

[API](#) [Preview Renewal](#) · [Create Order](#)

03

After the first renewal

The contract turns renewal-only: new purchases lock, and prorated additional seats open once existing licences are renewed.

[API](#) [Preview Renewal](#)

04

Renew the rest, add a product

Renew the remaining product, then bring in a product the customer doesn't already own from the Catalog.

[API](#) [Preview Renewal](#) · [Create Order](#)

SECTION 01

Eligibility — when early renewal is offered

The action appears only inside the window before the anniversary date.

ELIGIBILITY

Outside the window, early renewal isn't offered

More than 30 days from the anniversary date with no early renewal placed, so the Early renew action doesn't render — partners can't trigger it by accident.

The customer sits at Aug 30, 2026 with 46 days to renewal; the window opens Jul 31.

ELIGIBILITY

Inside the window, Early renew appears

From 30 days before the anniversary date, Early renew shows next to Edit renewal order — the entry point for renewing existing licences.

Brand-new products take a different route through the Catalog, covered later.

SECTION 02

First Early Renewal — Renew Existing Licenses

Renew a product's current licences; the first order rolls the anniversary forward.

FIRST EARLY RENEWAL

1

Open the Early Renewal Dialog

The dialog loads the customer's active subscriptions on the Existing segment and runs a renewal preview to populate per-licence price, discount level, and prorated days.

The deadline banner shows the current cut-off — Aug 29, 2026.

[API Preview Renewal](#)

FIRST EARLY RENEWAL

2

Renew Acrobat Pro — a Partial Early Renewal

Renew all 10 Acrobat Pro licences and leave Creative Cloud Pro for a later order. A 3YC renewal discount applied to the line drops the per-licence price.

Renewing one product still rolls the whole contract's anniversary forward on success.

[API Preview Renewal](#)

FIRST EARLY RENEWAL

3

Submit — the Anniversary Rolls Forward

The order books and the anniversary date moves from Aug 30, 2026 to Aug 30, 2027. Acrobat Pro now shows 10 of 10 renewed.

Renewed quantities appear on the next data sync — submission doesn't force a refetch today.

[API Create Order](#)

The screenshot displays the Adobe CodeGen Resellers interface for a customer named Haney-Scott. The page shows account details, including a 3-Year Commit discount and a list of active products. The anniversary date for the renewal is shown as Aug 30, 2027, rolled forward from Aug 30, 2026. Two products are listed: Acrobat Pro for teams and Creative Cloud Pro for teams, both with auto-renewal on and active status. The Acrobat Pro product shows 10 licenses, with 10 of 10 renewed. The Creative Cloud Pro product shows 20 licenses. Buttons for 'Add licences' and 'Upgrade' are visible for both products. A notification at the bottom indicates that the renewal order was submitted successfully with Order ID: 9205460412.

SECTION 03

After the First renewal — The Contract is Renewal-only

New purchases lock; additional seats follow the existing renewal.

AFTER THE FIRST RENEWAL

New purchases are locked

With an early renewal in progress, plain purchases (Immediate Orders) and deferred purchases (Scheduled Subscriptions) are disabled. Only “At Early Renewal” remains.

The message names the reason, so the partner knows it isn't a fault. (Ref 3131)

Make licences available

☐ Now

☐ At renewal

☒ At Early Renewal

Warning: An early renewal has been detected for this customer. Only renewal orders can be placed until the current term ends. **Ref 3131**

AFTER THE FIRST RENEWAL

Additional Seats need the Existing Renewal First

Acrobat Pro is fully renewed, so its Additional tab is open.
Creative Cloud Pro isn't renewed yet, so its additional seats stay locked until the existing renewal is processed.

The cut-off holds: the banner still reads Aug 29, 2026 though the anniversary now shows 2027. (Ref 3121)

AFTER THE FIRST RENEWAL

Add seats to Acrobat Pro — Prorated, at the corrected rate

Additional seats price at the prorated rate for the days remaining. The preview also corrects the offer ID's discount-level suffix to the tier that applies at the new total quantity.

That corrected offer ID — not the one first requested — is what the order submits.

[API Preview Renewal](#)

SECTION 04

Renewing the Rest, and Adding a New Product

Renew the remaining product, then bring in something brand-new from the Catalog.

RENEW THE REST

1

Second early renewal — Creative Cloud Pro

On Aug 10 the partner renews Creative Cloud Pro's 20 licences. Only it remains on the Existing tab, since Acrobat Pro is already renewed.

The customer stays eligible through the rolled-over window, and the cut-off is unchanged.

[API](#) [Preview Renewal](#) · [Create Order](#)

RENEW THE REST

2

Everything renewed — the dialog defaults to Additional

With both products fully renewed, the Existing segment is empty, so the dialog opens on Additional. Both products are now eligible for extra prorated seats.

[API Preview Renewal](#)

ADD A NEW PRODUCT

3

Add a brand-new product from the Catalog

At Early Renewal bundles a product the customer doesn't own into the renewal. The checkout is labelled as an early renewal, priced through the renewal preview, and calls out the prorated coverage.

Because it isn't the first early renewal this cycle, the anniversary doesn't move again.

[API Preview Renewal · Create Order](#)

The screenshot shows the Adobe Resellers interface for a 'Checkout — Early Renewal' of 'CodeGen'. The breadcrumb trail is 'Resellers > Haney-Scott > CodeGen'. The page title is 'Checkout — Early Renewal'. Below this is the section 'Review details — Early Renewal' with three status items: 'This purchase is for CodeGen on behalf of Haney-Scott.', 'Priced through the renewal preview at the early-renewal rate.', and 'This early renewal is prorated over 385 days — from the order date, 10 Aug 2026, to the 30 Aug 2027 anniversary. That's more than a full year.' A note states: 'Only renewal orders can be placed for this customer until the current term ends — Aug 30, 2027.' On the right, the 'Early Renewal Summary' shows 'Adobe Express for teams' with Offer ID: 65304479CA01A12. It displays 'Licences' as 5. The 'Annual price' is \$44.29/licence (list rate: 365 days, crossed out from \$221.45). The 'Prorated price' is \$46.72/licence (early renewal: 385 days, totaling \$233.60). A yellow callout box highlights '385 DAYS' and states: 'Longer than a 365-day year, so the prorated total is higher than the annual price. Covers 10 Aug 2026 → 30 Aug 2027 — the extra 20 days beyond a year add +\$12.15.' The 'Estimated total' is \$233.60, broken down as '\$221.45 at the annual rate · +\$12.15 +local taxes apply'. A blue 'Place order' button is at the bottom.
